Organised and customer-focused Brunel University London student (MSc Artificial Intelligence) with experience in customer service and data in busy, fast-paced settings. I enjoy helping customers by phone and email, resolving their queries and making sure they feel valued and listened to. I am confident with Microsoft Office, good at managing my own time and handling several tasks at once, and quick to learn new systems. I would love to join Connected Kerb as a part-time Customer Service Support Coordinator.
