Sara Qureishi

London, UK | 07760 584657 | sara.qureishi24@gmail.com

Warm, friendly and reliable Brunel University London student (MSc Artificial Intelligence) who enjoys helping people and working as part of a busy team. I have experience in fast-paced, customer-facing work and I take real pride in getting things right for customers. I love good food and would be proud to serve food lovers as a Supermarket Assistant, keeping the shop well stocked, tidy and welcoming so every customer leaves happy. I am available on Friday, Saturday, Sunday, Monday and Tuesday, including mornings, evenings and weekends. I am not available on Wednesday or Thursday due to university classes.

WHY I'M A GREAT FIT

- Friendly and confident with customers, always happy to help and point people in the right direction.
- A strong team player who enjoys supporting colleagues wherever the shop needs it, from shelves to checkouts.
- Careful and organised, so shelves stay full, tidy and in the right place at the right time.
- Reliable and hard working, comfortable with light physical tasks like stock replenishment.
- Genuine interest in food and drink, and keen to learn about products to help customers.
- Flexible across my available days (Friday to Tuesday), including mornings, evenings and weekends.

EXPERIENCE

PYTHIAN

Analytics Consultant | May 2022 - August 2023

- Worked in a busy, fast-paced team and spoke with clients to understand what they needed and keep them updated clearly.
- Stayed organised and accurate while handling several tasks at once and meeting deadlines.
- Promoted within four months for being reliable, hard working and quick to learn.
- Checked and validated work carefully so the results were correct and could be trusted.

UNIVERSITY & COMMUNITY INVOLVEMENT

- Event volunteer at a community meetup of 50+ people, handling registration, welcoming guests, parking and prizes as part of a team.
- Acknowledged contributor in Artificial Intelligence Review (Springer, 2026), credited for careful and reliable testing work.

EDUCATION

- MSc Artificial Intelligence - Brunel University London (ongoing).
